

## Woman's Beauty

Some women retain their beauty to an advanced age. But women, who regularly endure pain, age rapidly, for suffering leaves its lasting marks on them.

Nearly all women suffer more or less with some form of female trouble. It should not be neglected. Avoid the pain—treat yourself at home by taking Cardui, as thousands of other women have done. Begin at once and give Cardui a fair trial.

# TAKE CARDUI

### It Will Help You

Mrs. Katie Burlison, Goreville, Ill., tried Cardui and writes: "I suffered with female troubles, and was so sick I could not stand on my feet. Finally I began to take Cardui, and soon began to mend. Now I am able to do all my household work and am in much better health than I was before." Try it.

### SOUTHERN COMMERCIAL CONGRESS.

Old St. Matthew's Church, corner of 15th & H streets, which in February passed into the hands of Mr. John M. Parker, of New Orleans, and Mr. Charles Hall Davis, of Petersburg, acting for the Southern Commercial Congress, has now been deeded to the Southern Building Corporation of which Mr. T. F. Schneider, the well-known architect and capitalist of Washington, as president and Mr. John M. Parker, of New Orleans, vice-president. The lot is 150 feet square and a magnificent office building of the finest type will be erected thereon or twelve stories high. This corporation has been organized for the express purpose of erecting a building as a home for the Southern Commercial Congress as well as for revenue. The building and ground will cost \$1,000,000. The only difference between this enterprise and a building corporation along the usual lines is that each stock certificate bears the following endorsement:

"It is a condition hereof that the Southern Commercial Congress may, at its option, at any time within three years from the date hereof, take over this certificate by the payment to its owner and holder of the par value hereof and secured interest at the rate of six per centum per annum."

This action in relation to the home and revenue producer of the Southern Commercial Congress renders sure the erection of a building which will mean much of practical benefit to the southern states in attracting attention to them as the region of greatest present opportunity in the United States. While the building is being erected the general publicity work carried on by the Southern Commercial Congress for the benefit of all southern states will go forward without cessation. The government has already been a distinct success in stimulating local confidence and in creating a desire for co-operation among the commercial organizations of the south who in a sense have similar problems to meet. The work of the Southern Commercial Congress is for "a greater nation through a greater South."

The Southern Commercial Congress is a natural outgrowth of the organized effort being made throughout the South and is supplemental to all lines of work carried on by chambers of commerce, commercial clubs, etc. It will devote its power to calling into being throughout the South commercial organizations where none exist, to strengthening existing organizations, and to promoting on the part of every thinking man an inviolable confidence in the commercial destiny of the southern States. At the same time, it will carry forward general propaganda, beyond the power of local organizations, so that the South as a whole may be fully understood and there may come to it the development possible through more investment in enterprises and through the arrival of men of kindred impulse with those already in the South.

The stupendous truth regarding the south is this: Nature has given to the states south of the Mason and Dixon line more available coast line, more navigable streams, more water power, more water products, more minerals conveniently placed, more forest resources, more agricultural range from the products of Florida and Texas northward, more unused but valuable land and greater general accessibility to coast line than can be found in combination in any other portion of the United States.

Commenting upon this stupendous truth, a Washington paper recently said: "Granting the accuracy of this statement it follows that there is to be unfolded south of the Mason and Dixon line, a commercial drama of marvelous meaning for the whole United States."

**Sufferers from Earthquake.**  
Paris, June 16.—The minister of war has been authorized to build barracks for the people whose homes were destroyed in the earthquake that Friday night visited Sétout Canaal, Rogues, Lambaz, Aix-en-Provence and other southern French towns. It was officially reported to the government that several hundred persons are homeless in quake region and are suffering keenly for want of food and shelter. The government had already sent food supplies to the destitute.
